

TO RUN FOR SENATOR.

Bishop W. Perkins Announces His Candidacy.

NOTHING BUT COMMENDATION

For the Republican State Ticket and Platform—His Views on the Financial Question.

"I will do all I can for the Republican party in Kansas, and if we are successful I shall shy my castor into the senatorial fight next winter," said ex-United States Senator B. W. Perkins today.

"I think," continued the ex-senator, "that the ticket nominated is an excellent one. The personnel of the ticket is good and it is well distributed so that all sections ought to feel satisfied, and I believe all the candidates can work together harmoniously for the success of the ticket."

"Major Morrill will make a popular candidate for governor with the business men of the state as well as with old soldiers, and the nomination of Mr. Blue for congressman-at-large will be pleasing to the soldier element and will strengthen the ticket in this particular. In fact the old soldiers have been so badly treated by the national administration that they feel that they want a special representative in congress, and my judgment is that in the approaching campaign we will make more gains from the old soldier element than from any single element in our politics."

"What do you think of Troutman and the rest of the ticket?" was asked.

"I think the nomination of Troutman for lieutenant governor is an exceedingly good nomination—not only because of his ability and capacity as a speaker but his nomination is a guaranty to the prohibition Republicans of the state that the Republican party does not intend to turn its back on prohibition, notwithstanding we are entirely silent upon the subject in our platform."

"There were many reasons why Billy Edwards should be made an exception to the general feeling that prevailed that the old ticket of two years ago ought not to be renominated and in my judgment he will prove a very popular candidate and his nomination gives great strength to the ticket in the southwestern part of the state."

"The other candidates are good men and will make capable and efficient officers."

"What do you think of the platform?" "The platform is a good one and ought to prove satisfactory to all Republicans. We have had a prohibition amendment to the constitution and prohibition legislation for fifteen years and there is no more reason why we should be reiterating our devotion to prohibition each year than that we should reiterate our faith in the ten commandments and the constitution did a wise thing in ignoring it exclusively in its platform."

"I also think the convention acted wisely in ignoring the female suffrage question. I believe that a majority of the Republicans of Kansas are in favor of female suffrage, but there are very many excellent Republicans who are opposed to it, and it is a question of propriety and conscience with each individual voter and ought not to be made a party question."

"My judgment is that it would not have strengthened the cause if we had declared for it in our platform, while it would have injured us with many who do not believe in extending to women full enfranchisement."

"A lady suffragist stated to me that our platform of two years ago endorsed everything but the Keely cure, and she thought we ought to be willing to endorse female suffrage this year, as it was one of the practical issues of the day. I tried to suggest to her many good reasons why in my judgment we ought to ignore it in our platform, and I am very glad that the Republicans of Kansas have at last reached a conclusion that it is unwise to take up every issue in the country, and make it a feature of their platform."

"What about the financial plank?"

"The money question with the tariff will be the great issue in 1896, and it was right that the Republican party of Kansas should declare emphatically for bimetalism and for the coinage of the product of our silver mines. The ratio is left to be determined by the wise considerations necessarily attending legislation upon the subject, and my judgment is that the sentiment of Great Britain is rapidly changing upon the subject of bimetalism, and it is only a question of a little time when the great commercial nations will be able to agree upon an international standard that will provide for the coinage of all the silver mined in the world. It was Great Britain that prevented the reaching of such a result at the recent Brussels convention; but as before suggested, I believe the temper of Great Britain is rapidly changing upon the subject."

"I believe we will redeem Kansas this year. There is no one but the office holders that has any considerable confidence in, or respect for the national Democratic administration and the state Populist administration is a stench and reproach to the good name of our state and to the reputation of our people and all good people who have at heart the best interests of our state should join with Republicans this year in its complete and absolute redemption."

The ceremony was performed at 11 o'clock by Rev. The decorations were chiefly white carnations, roses and daisies, and the bride was attired in a stylish traveling costume of brown cloth with hat and gloves to match.

About twenty-five friends of the family were present and extended congratulations, and Mr. and Mrs. Crumrine left immediately for Denver. They will go to Utah and Glenwood Springs, and will make a tour of Utah before returning, when they will be at home at 724 Polk street.

MRS. MORGAN NOT PLEASED.

Severely Comments on Miss Anthony's Remarks on Woman Republicans.

Mrs. Minnie D. Morgan, president of the Kansas Woman's Republican association, professes to be satisfied with the action of the Republican state convention in refusing to adopt a suffrage plank.

"I was not in favor of a plank being adopted by either party," she said, "I was responsible for the resolution introduced in the Woman's Republican association, but I waived my own judgment when the executive committee saw fit to take a different attitude. I am a suffragist, however, and expect to see the amendment carry this fall. The refusal of the Republicans to endorse a suffrage plank will have no effect upon the party. The Republican women of Kansas will

use their best efforts for the success of the party just the same.

"The Republicans," she continued, "have always stood for an equal ballot and a fair count and when they do that they must advocate the enfranchisement of women. Our association will organize and work for the success of the Republican party."

Mrs. Morgan was offended because Miss Anthony had spoken so disparagingly of the association of which she is president. She said: "I believe Miss Anthony is a good woman who is to be revered for the good she has done, but a life long struggle in the suffrage cause has had its effect upon her temper and you know she is an Anthony. Those women would have done the cause much more good if they had not come here at all."

MAJOR SULLY'S "MISDEED."

Great Zeal On the Part of a Policeman to Make an Arrest.

Major George Sully, in command of the Kansas and Oklahoma division of the Salvation Army, was in the police court today charged with a misdemeanor. His offense however, was not a serious one. In fact, ten times worse ones go on under the policemen's noses all the time. He hitched his horse to a shade-tree on Quincy street, while watching the erection of the Salvation tent. He didn't know it was against the law to hitch to trees, and especially to a little half-dead tree like the one in question. It was the first time this member of the ministerial union was ever in the police court. The ordinance provides for a fine of not less than \$5 or more than \$50. Judge Eisminger made it the minimum.

The police have Argus eyes for a trifling offense of this kind, but they never see (nor smell) the joints on Quincy street, and on Seventh street, that have been running wide open for weeks.

"Big Jim" McHenry was arrested last night charged with being disorderly, but he forfeited the \$5 he put up for his appearance in court. The police say that McHenry, who lately graduated from the Keely institute here, has allowed his appetite to master him again. Last night he and his wife quarreled. Captain Gish, who can scent a disturbance of this kind further than most men can see, made the arrest.

John Watts was fined \$5 for fighting with his uncle, E. T. Guy. It was not a very serious row and it grew out of some domestic troubles that were not aired in court.

Kale Glichrst, the colored man who stole coal from cars in the Rock Island yards, was turned over to the state. He is charged with petty larceny. The police would like to call it grand larceny, but with coal selling at \$5 a ton, he would have had to carry off four tons to make it reach the dignity of that crime.

Richard Wales, who sold beer labeled hop-tea at 108 North Kansas avenue, was brought into court this morning, but Judge Eisminger had other business in the district court, and so continued the case until 8 o'clock this afternoon.

LYMAN DOES IT AGAIN.

Topeka's Lightweight Defeats Missouri's Middleweight in Fifty Minutes.

Harry Lyman defeated Wm. Fisher of Kansas City, last evening for the second time in a catch-as-catch-can wrestling match, two best out of three, at Crawford's. There were about 150 people present, and the evening's fun began with a four-round boxing match between George Warren and Harry Bradshaw. R. D. Hunt of Topeka, then got two falls on Jake Vogel in two and eighteen minutes respectively, and the crowd witnessed a six-round boxing match between Frank Bradshaw and George Ridley of Kansas City.

The event of the evening then came on, and Lyman and Fisher were greeted with cheers. Both men were in good condition, though Fisher looked thirty pounds the heavier. After a hotly contested round of twenty-seven minutes

Five Insane People Escape from McCassey's Insane Asylum in Ten Days.

Five lunatics have escaped from the state insane asylum during the last ten days, threatening the lives and property of people living in this vicinity.

Such a number of patients escaping from the asylum in so short a time is conclusive evidence of the incompetency of the present superintendent, Dr. McCassey and the lack of discipline in that institution.

The patients who have escaped during the last ten days are all men and their names are Maxfield, Rader, Cutter, Appleby and Ackerman.

In Dr. McCassey's advertisement published a few days ago he omitted all reference to the number of patients escaping from under his care.

During the last three months of Dr. Eastman's administration there were no

suicides at the asylum. During the first three months under Dr. McCassey there were three.

During Dr. Eastman's last three months no one escaped; under the last ten days of Dr. McCassey's there have been five.

Still the governor or the board of charities won't investigate.
